

COMPANY PROFILE

WE LINK WAYS, TO YOUR SOLUTION

► ABOUT LINKWAYS

Linkways was founded in 2014, headquartered in Suzhou, it also has offices in Guangzhou and Taoyuan, providing services across markets in Mexico, Vietnam, and Thailand.

Linkways has been working with top global partners for many years, such as ViTrox, Keysight, YXLON, SPEA, and others, offering testing and production solutions in the semiconductor and EMS electronics manufacturing services sectors. Its product portfolio includes Wafer AOI, Lead Scan, 3D inline X-ray inspection, AOI, ICT, flying probe tests, as well as offline analysis X-ray machines, conformal coating inspection, and assembly line testing solutions.

Since its establishment, **Linkways** has served several leading semiconductor and EMS manufacturers, particularly accumulating years of experience in testing for servers, automotive electronics, and consumer electronics. The company has played a vital role in assisting clients' growth and global expansion.

▶ OUR STRENGTHS

Response & Flexibility

We offer quick responses and flexible solutions to address production challenges.

Precision Technical Support

We provide precise technical support, ensuring that the equipment we represent seamlessly integrates into clients' production processes, improving quality and reducing defects.

Customer First

Trustworthiness

We operate with integrity and strive to be a trusted partner for our clients, maintaining high reliability in technical support, product quality, and after-sales service.

Long-Term Partnership

We build long-term partnerships, offering comprehensive services and support to ensure stable equipment operation and increased ROI.
